

Petition to Educate Individuals on Expensive College Tuition

To: Hillary Clinton

Issue: Tuition nowadays is very expensive. Students are going into a financial crisis because of tuition. They get student loans and don't pay it back fully until years later. Some students can't even get attempt to receive a diploma because they can't afford the tuition at all.

Demand: We demand that all public colleges/universities are tuition free. Tuition is not at all affordable for many people right now and that needs to be fixed. The United States education system is pretty bad and it should get better.
